COLD BLACK RIVER UNLEASH NEW EP "HILLBILLY ZEUS"

The undertow is inescapable with Cold Black River's latest torrent.

Cold Black River pulls you down deep, holds you close, and doesn't let go even after you stop kicking and submit. The hooks are real, the vocals immersive, and the driving doom draws you in. CBR swim in the vein of seminal influences like Alice in Chains and Clutch, submerging the audience in a mix of heavy riffs and haunting lyrics.

Their new EP, "Hillbilly Zeus," introduces their fresh take on deconstructed stoner anthems. From their evocative, fast-paced rocker "Shotgun" to their current doom opus "Hillbilly Zeus," CBR embrace the legacy of heavy Southern rock with an undercurrent of gritty soul. They're aggressively dazed and deep in the pocket. The new single, "The Great Equalizer," is a prime example of their craft. Watch the music video on www.coldblackriver.com.

Cold Black River will perform the new album LIVE, on the air, on Maximum Ink Radio's The Jimmy K Show on Tuesday September 15 at The Frequency (121 W. Main St, Madison). Leading up to the release, Cold Black River will deliver exclusive content, sneak peeks, exciting contests and more to those who are embraced by the tide.
